

VINTAGE BLOCK BOX

Print onto white card stock. Trim out using scissors or an Xacto knife. Using a ruler and a bone scoring tool, score along the dotted lines. (Or: use a butter knife or the blunt back side of an Xacto knife to carefully score.) Fold scored lines and fold into a box. Tape or glue the flaps together first (marked with an X below), then fold and secure. Use doublestick tape or a hot glue gun.

(Or: use a butter knife or the blunt back side of an Xacto knife to carefully score.) Fold scored lines and fold into a box. Tape or glue the flaps together first (marked with an X below), then fold and secure. Use doublestick tape or a hot glue gun.

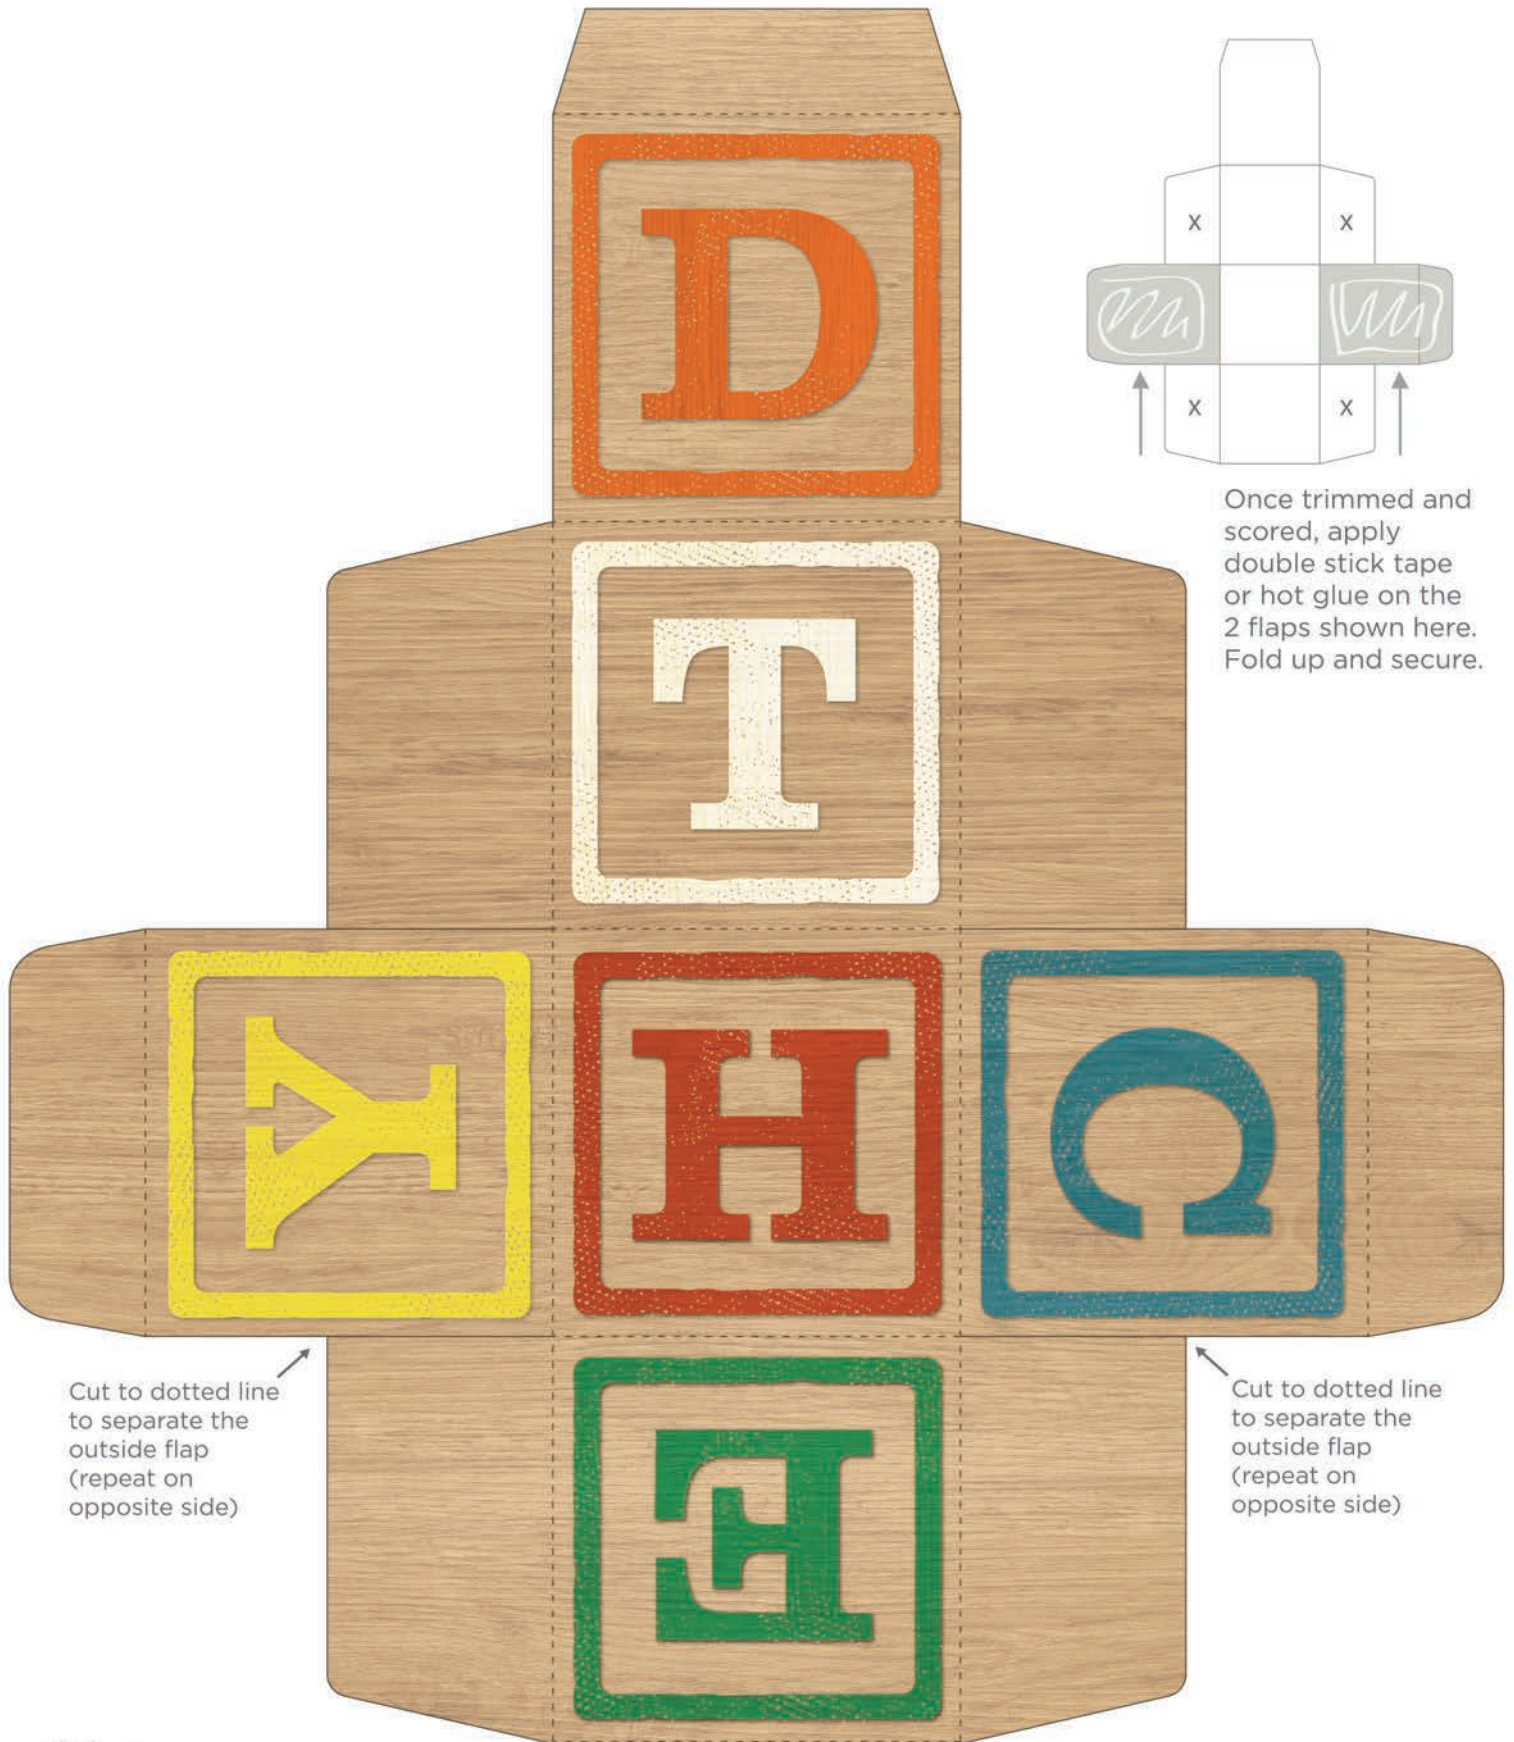

Once trimmed and scored, apply double stick tape or hot glue on the 2 flaps shown here. Fold up and secure.

Cut to dotted line to separate the outside flap (repeat on opposite side)

Cut to dotted line to separate the outside flap (repeat on opposite side)
